DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16-22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hilbert et al, 5,886,133.

The cited prior art discloses a process for the production of particular polyesters using a novel catalyst system. The process comprises reacting TPA or DAT and EG in the presence of Ti catalyst, wherein the Ti is added prior to the melt polycondensation step. See Example 4 in column 17. The prior art process has features and characteristics as claimed.

2. Other references listed on PTO-1449 have been made part of the record.
